

WORLDWORKS GAMES

ArenaWorks™

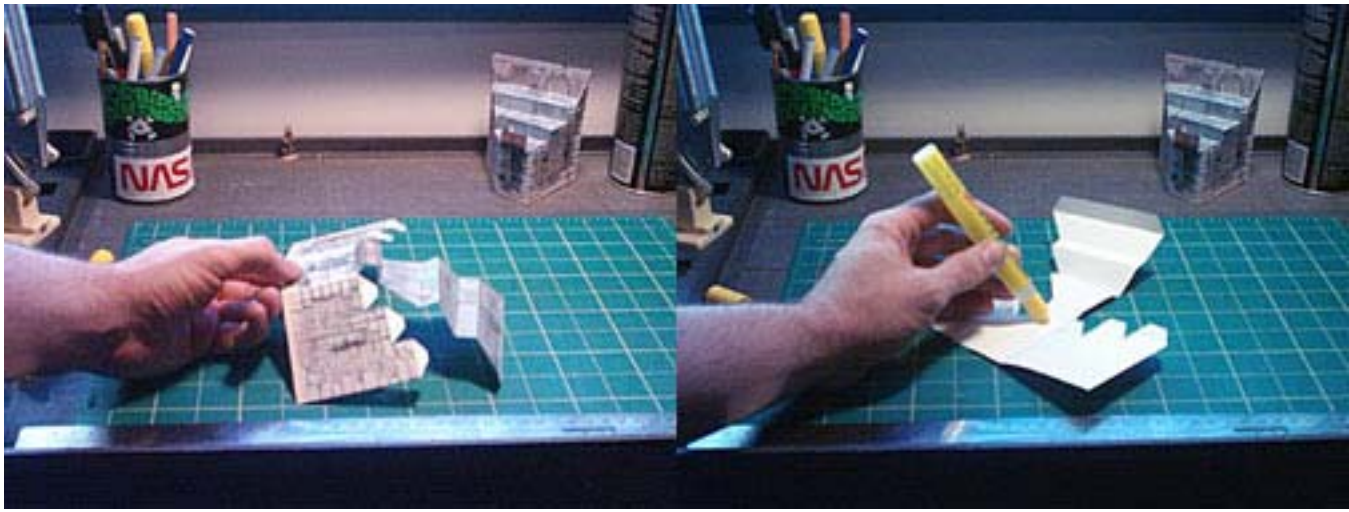

MODEL TYPE:	45 DEGREE CORNER-FRONT
DIFFICULTY:	2 out of 5
APPROX BUILD TIME:	Quick - 5 to 10 minutes <i>(Time may vary depending on skill level)</i>
DUPLICATIONS <i>(Suggested)</i> :	2 to 4 copies <i>(optimal)</i>
EDGING COLOR:	Grey or Black felt <i>(What is "Edging"?</i> <i>Please refer to the included "Beginners Guide".</i>

The front is similar to the 4-inch Terrace Fronts and goes together the same way. You have a choice of two backs, "Plain" and "Tower"; each will fit the right or left corner. Place the two corners against each other or put a terrace between them for a more rounded arena shape as shown in the lower picture.

STEP 1:

Cut and Score your models as noted paying close attention to areas marked with reverse side scoring arrows. As in the straight terraces, start by gluing the reverse side of the railing.

Step 2:

Fold the railing over keeping the angle at roughly 90 degrees. Next, apply glue to the support tabs on the ends with the stair steps. Align the terraces over the support tabs and press together firmly.
