

WORLDWORKS GAMES

ArenaWorks™

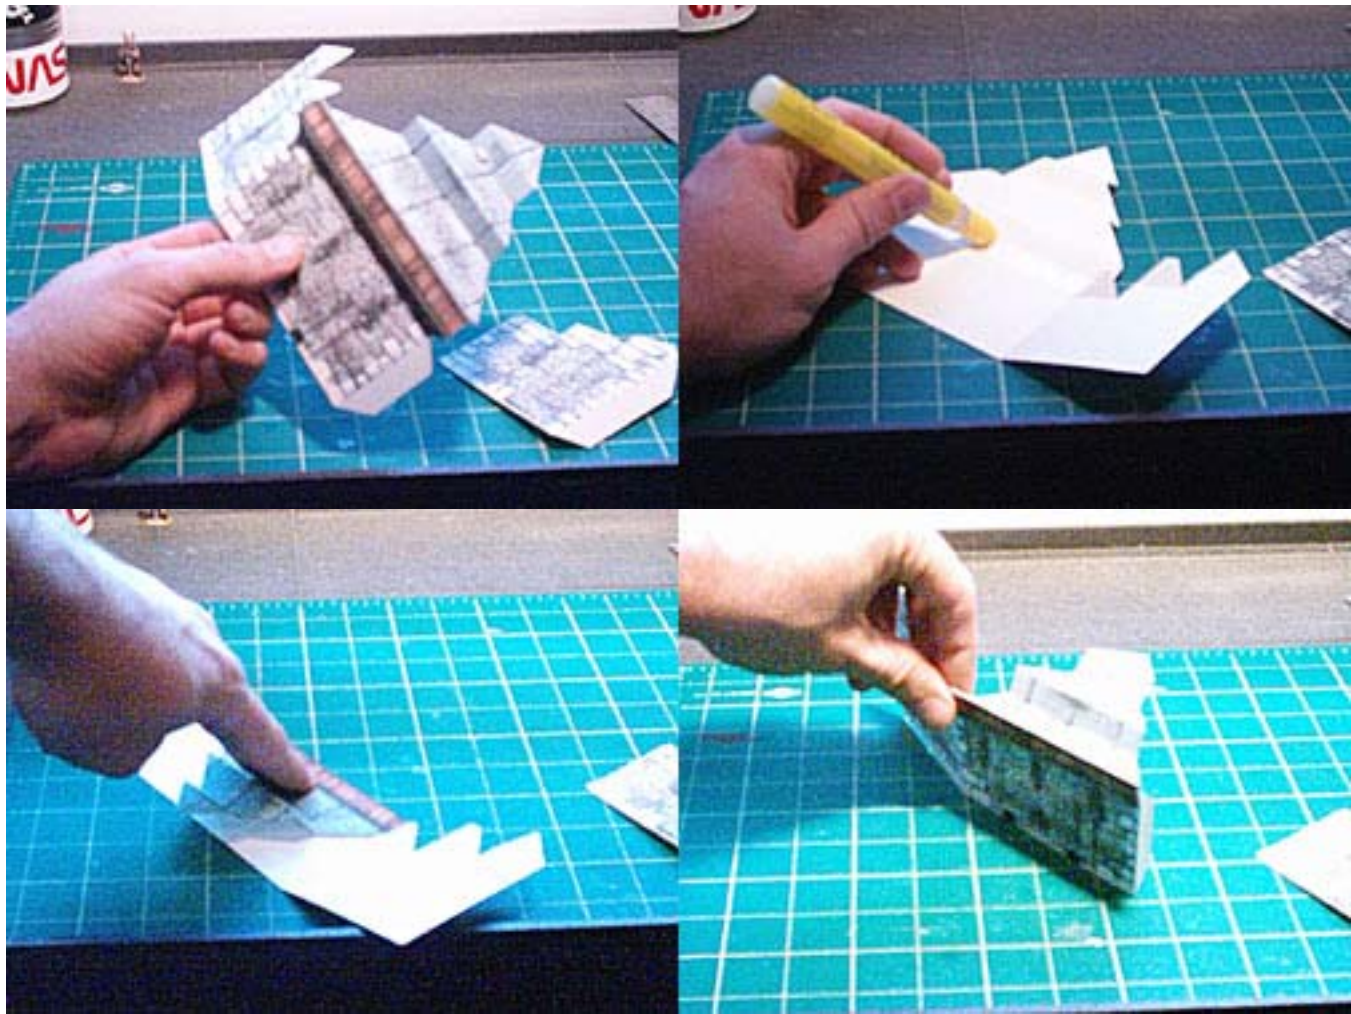

MODEL TYPE:	90 DEGREE REVERSE CORNER
DIFFICULTY:	2 out of 5
APPROX BUILD TIME:	Quick - 5 to 10 minutes <i>(Time may vary depending on skill level)</i>
DUPLICATIONS <i>(Suggested)</i> :	1 to 2 copies <i>(optimal)</i>
EDGING COLOR:	Grey or Black felt <i>(What is “Edging”?</i> <i>Please refer to the included “Beginners Guide”.</i>

This easy build makes the arena quite versatile. Make an “L” or “T” shaped field, or stands as shown below with the “Low” terrace back. Also works well with the tall 3D wall.

STEP 1:

Cut and score as shown. Apply glue to the back of the railing, the same as the other terrace pieces. Fold the railing over and stand it upright.

STEP 2:

Apply glue to the end tab. Take the loose end piece and attach as shown. Glue all the remaining tabs and fold the end over and attach the long tab on the back. Then fold the terrace steps down over the support tabs and hold until dry.
